

SASY Transportation Committee Meeting

Notes for Meeting of July 28, 2015

1. **Attendance:** Larry Jensen, Melanie Foxcroft, Tim Wong (Chair)
2. **Approval of Meeting Notes**
Motion by Melanie to approve the meeting notes for June 29, 2015; **Motion seconded by Larry. Motion carries.**
3. **Update on Milwaukee Street Bridge Over East Branch of Starkweather Creek**
Tim reported it was closed as of 7/27/15.
4. **Update on Bike Path Closure Schedule, Marquette St. to Walter**
The bike path is now closed. The detour via Fairview is a major detour for bikes and is unsatisfactory.
The bike bridge over East Branch at end of Ivy Street is rickety and narrow.
Melanie moved to request that city engineering close one lane of Atwood between Oakridge to Dennett to allow bikes to take a more direct route. **Seconded by Larry. Motion Carries.**
Tim will present at the SASY Council.
5. **Bus Detours on Milwaukee Street – Why no notification to riders?**
Meeting participants were aware that there was inadequate notification but don't know the details. Tim will contact Drew Beck, Chuck Kamp and Mick Rusch to determine what happened.
6. **Madison in Motion Presentation**
Discussion followed. Tim will contact Dave Trowbridge regarding the Transit Oriented Development (TOD) plans to concentrate low income and elderly housing at the ends of the transit corridors under the TIGER funding grants. Segregated housing has not worked well in Allied Drive and similar developments, so why would it work well here?
7. **Other Agenda Items:**
The Public Information Meeting (PIM) regarding Schenks Corners is being held August 25 from 6:30 pm – 8:30 pm at the Goodman Community Center, Evjue Room. Since this is the usual date for the Transportation Committee meeting, that meeting will either be cancelled or rescheduled.
