

Report from the Jackson Street Plaza sub-committee of the Preservation and Development Committee:

- We held a kickoff meeting on Dec. 20. Four sub-committee members attended (of 6 who expressed interest in serving).
- We discussed the concept that I presented at the November SASY Council meeting of the small triangle of land across Jackson Street from the Chocolate Shoppe.
- We also discussed expanding the scope of the project. There was considerable enthusiasm for expanding the scope.
- We brainstormed concept ideas and design ideas for an expanded scope.
- Tasks were assigned that to help us determine whether an expanded scope is feasible, to identify city partners that we would need to work with, and identify potential roadblocks.
- Reports on those tasks are due at our next scheduled meeting on January 17.
