The mission of the SASY Transportation Committee is to promote a safe, sustainable, walkable & bikeable, multimodal neighborhood. The committee will work with residents of the SASY neighborhood, SASY businesses, city staff & elected representatives to identify, educate, develop policy and evaluate implementation & results regarding:

- Short & long-range transportation infrastructure needs
- Proposed and planned projects, impacts & issues
- Transportation-related values, priorities and needs of residents & businesses

The committee will serve as the initial consultation for transportation-related design, development, construction & repair in the neighborhood: infrastructure, pedestrian, bicycle, mass-transit, motor vehicle & snow removal. The committee will make recommendations to the SASY Council.

Specific issue(s) to report: The committee has decided to leverage and maximize the attention the city is giving to our neighborhood in regards to placemaking. We are looking at all interior residential streets for possible placemaking enhancements and will work with the Corridor Planning Committee for potential collaborations. Introducing and/or incorporating this focus area at one of the public planning meetings is a possibility. Please read our meeting notes for more details.
