

## SASY Kipp Committee Report 4-8-13

Date of Meeting: March 19, 2013

Name of Committee: Kipp committee

Chair: Gary Karch

Members: Angelo Castillo, Masami Glines, Lance Green, John Steines, Matthew Miller, Brad Hinkfuss, Steve Klafka, Gary Karch

Purpose of Committee: Seek a clean and safe environment as it relates to MKC

Action Items: As per SASY March 7 meeting, we were charged with drafting a letter to WDNR concerning their lack of response to our prior communications. In order to keep it brief, we identified two important issues to which the DNR had not given SASY an answer. These were 1) a need for a comprehensive map delineating the extent of vertical and horizontal pollution at the site 2) the need for a public meeting. The letter to Linda Halefeld of the DNR was sent on March 28 and is posted on the SASY website. We also sent a press release.

Specific items to report: We will have latest information to report at April 11 SASY meeting.

Recommendations to council: None as of this writing but we anticipate having some at April meeting.

Discussion items at board meeting: none

Next meeting: TBA
