

SASY

Schenk-Atwood-Starkweather-Yahara Neighborhood Association

March 27, 2013

**Linda Hanefeld, NR region program manager
Wisconsin DNR, South Central Region
3911 Fish Hatchery Rd.
Madison, WI 53711-5397**

Dear Ms. Hanefeld,

The Schenk-Atwood-Starkweather-Yahara Neighborhood Association (SASY) is concerned by the Wisconsin Department of Natural Resources' failure to respond in a timely manner to our letter dated October 21, 2011 [see attached] in which we requested information on pollution from Madison Kipp Corporation's operations.

Specifically, SASY again requests that the Department provide maps delineating the full extent and nature of all contaminants found, clearly illustrating their concentrations and location throughout their horizontal and vertical extent in the soil, water, homes and public buildings in our neighborhood. We also ask that information concerning ongoing and future efforts to delineate contamination and reduce or eliminate pollutants be provided in a timely manner.

In addition, SASY calls for an independent, professionally facilitated public meeting to be convened very soon wherein the WDNR and representatives of other concerned agencies explain the extent and nature of the pollution and its possible health effects. We request that this be in the format of a community meeting, with presentations to and Q&A with the whole audience.

As a neighborhood association it is our responsibility to advocate for the health and safety of our affected neighborhood. It is in this capacity that we make this request.

Respectfully,

Lou Host-Jablonski
Chair, SASY Neighborhood Association
